

Durotoluwa Praise

Full Stack Engineer · React.js · Node.js · TypeScript · React Native

Ikeja, Lagos, Nigeria · +234 706 999 1171 · praisecrackdev@gmail.com · praisecrack.netlify.app

PROFILE SUMMARY

Results-driven Full Stack Engineer with 5+ years of experience designing and delivering scalable web and mobile applications. Proficient across the entire stack, from crafting responsive React.js frontends to engineering robust Node.js/Express backends with real-time capabilities. Currently building production-grade backend systems and mobile apps (React Native/Expo) at OgunTech Hub and a CTO at trova. Known for taking full ownership of features, integrating complex APIs, and shipping clean, maintainable code in fast-paced team environments.

SKILLS

Frontend:	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Backend:	Node.js, Express.js, Go, Go cloud, Firebase Functions, REST APIs, WebSockets, Real-time Notifications, Auth & Authorization
Mobile:	React Native, Expo
Database:	SQL, Firebase, Realtime Database, MongoDB, Supabase
Tools:	Git, GitHub, Docker, Postman, CI/CD, trello, AWS, Performance Optimization

EXPERIENCE

Trova (Startup) — Chief Technology Officer

Abeokuta, Nigeria · Hybrid

May 2026 – Present

- Lead the technical vision, architecture, and development of **Trova**, a multi-currency escrow platform, designing secure transaction workflows, real-time infrastructure, and scalable system architecture from the ground up.
- Architect and build the platform using React, TypeScript, Supabase, PostgreSQL, and Tailwind CSS, implementing cache-first rendering, real-time synchronization, offline support, and performance-focused frontend architecture.
- Design security-first escrow systems, including cryptographically generated TrustLinks, role-based transaction permissions, buyer verification, automated workflow enforcement, and analytics that transform operational data into actionable business insights.

OgunTech Hub (Oguntechies) — Full Stack Engineer

Abeokuta, Nigeria · Hybrid

Feb 2026 – Present

- Engineer and maintain the backend notification system using Node.js and Express, handling real-time chat systems, ticket updates and live data events via WebSockets.
- Develop and ship mobile application features using React Native and Expo, working across both iOS and Android targets.
- Collaborate closely with the product team to design scalable API architecture supporting real-time user interactions.

PC Tech (Freelance) — Full-Stack Web Developer

Africa · Remote

Jan 2021 – Mar 2026 · 5 yrs 3 mos

- Designed and developed responsive, user-friendly web applications using React, TypeScript, JavaScript, and Ruby.
- Built scalable full-stack applications with React/Bootstrap/Tailwind CSS frontends and Node.js/Firebase/Ruby on Rails backends.

- Integrated and optimised Firebase and SQL databases for real-time data storage and retrieval across multiple client products.
- Created intuitive UI/UX designs ensuring seamless user experiences and accessibility across devices.

chikini Monie — *Mobile & Web Developer*

Akure, Ondo State · Hybrid

Jul 2025 - Jan 2026 · 7 mos

- Built and maintained MVP web and mobile applications, delivering feature-complete releases within tight iteration cycles.
- Improved UI consistency across the product and implemented new feature updates based on user feedback.
- Integrated frontend applications with backend services using Node.js, MongoDB, and RESTful APIs.

Rehort (Startup) — *Full Stack Engineer*

Lagos, Nigeria · On-site

Jun 2023 - Aug 2024 · 1 yr 3 mos

- Collaborated with a cross-functional team to develop scalable MERN stack applications from design to deployment.
- Built reusable frontend components and supported backend API integration to ensure consistent data flow.
- Participated in feature implementation, debugging, and deployment processes across multiple release cycles.

Transfer Multi-sort Electronics — *Tech Educator*

Nigeria · Remote

Jul 2020 - Sep 2022 · 2 yrs 3 mos

- Delivered interactive web development workshops training 15+ students in HTML5, CSS3, JavaScript, and React.js.
- Created beginner-friendly curricula introducing modern frontend frameworks and object-oriented programming concepts.

EDUCATION

Dominion University, Ibadan

B.Sc. Software Engineering · Oct 2020 - Aug 2025

LANGUAGES

English (Fluent) · **German** (Conversational)
